E-mail Address—lacpreschool@sunflower.com  
Website Address—www.lawrenceartscenter.org  
Area of Expertise—early childhood art education  
Professional Biography--

**LINDA REIMOND** is the Director of the Arts-Based Preschool Program, which was started in 1985. Linda was the original director and lead teacher. The program has grown from 20 students and two teacher/artists to 150 children and 9 teacher/artists, as well as visiting artists. The Center believes that art education for all individuals is imperative to the future of the arts and what better way to work for this vision than a preschool program teaching the arts--dance, drama, music, literature, storytelling, drawing, sculpture and architecture.

Linda has a degree in elementary education and taught kindergarten for 4 years and preschool for 26 years. In 1994, she completed her master's degree in early childhood education. Linda and the LAC Preschool staff have presented workshops at local, state, regional and national Early Childhood Conferences. She was an instructor for the training grant from the National Endowment for the Arts and has been an adjunct instructor in Early Childhood Education at Washburn University. Linda is Past President of the Douglas County Child Development Association and currently serving on the board.
